

CLASSROOM NEWS

Week of September 16, 2019

WEEK AHEAD

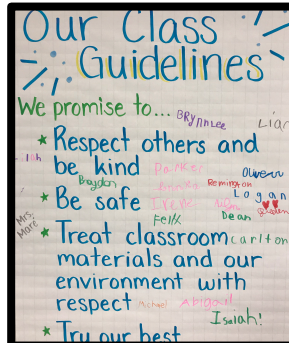

Hello, families!

Last week, our class brainstormed, listed, and published guidelines for everyone to follow. On Friday, we signed the guidelines and posted them for the year. Each student agreed to the following:

1. Respect others and be kind
2. Be safe
3. Treat classroom materials and environment with respect
4. Try your best

This week, we will begin a few new concepts. In math, we will review odd/even numbers then start a data unit, surveying classmates and creating graphs. Students will also begin working with Chrome-books. We will review how to care for them and explore a few helpful links. Students will use them during math and reading centers. Have a wonderful week!

- Mrs. Mare

SPELLING

Coming Sep. 30...

M"odd"sters, odd/even activity
