

CLASSROOM NEWS

Week of September 9, 2019

WEEK AHEAD

Hello, families!

We have finally arrived at our first, full week. During our time in class, we will be practicing our everyday routines and procedures. One of our goals for the week is to transition quickly during centers in order to make the most of our time available. We will also create our classroom rules and sign them at the end of the week.

All year, our class will use centers to complete a variety of math and reading tasks. This week, our math centers are focused on 100s charts; skip counting by 5s, 10s, and 2s; and even versus odd numbers. In reading, we are working hard to increase our stamina. Any reading done at home is a huge help towards building our reading muscles. Have a great week!

- Mrs. Mare

SPELLING

Coming Sep. 30...

100s chart puzzle fun

ODDS & ENDS

Thank you so much for the Clorox wipes and tissues! At the moment, we are fully stocked and ready to ward off cold and flu seasons.
