# Telling Time MEMORY

- Print out the following 4 pages (to make it harder to see through, you could use heavy-duty paper or regular paper and glue construction paper to the back afterwards)
- Cut out each of the squares
- Mix up all the cards and lay them face down in a 4x6 rectangle
- Take turns flipping over 2 cards at a time
- The goal is to correctly match the digital time card with the correct analog time card
- If you do not find a match, flip both cards back over and your turn ends
- If you find a match, keep the pair and flip over 2 more cards
- The player with the most pairs at the end wins 😊
